Forecast for Friday 16 Jul 2021

Weather: Low cloud and patchy drizzle will affect the far west. After a sunny start for most, the lower cloud in the west will extend east, bringing some patchy drizzle before it gradually thins and breaks in the afternoon. However the west coast ranges may stay dull.

Chance of cloud free mountain/hill tops above 800m: 30% for a time in the morning rising to 70% in the afternoon with chances always highest in the east.

Visibility: Mainly good in the east, away from cloud, but moderate or poor in drizzle or low cloud in the west which could be based at around 500m. Cloud detail uncertain.
